

DANGEROUS SPACES ABOARD SHIP

To be completed by Masters of all vessels entering the Port of Liverpool
(PLEASE USE BLOCK CAPITALS)

A dangerous space means any space not continuously or adequately ventilated in which it is reasonably foreseeable that the atmosphere may contain toxic or flammable gases, or be deficient in oxygen to the extent it may endanger the life or health of any other person entering that space.

Are there any dangerous spaces aboard the MV as defined under The Merchant Shipping (Entry into Dangerous Spaces) Regulations 1988, located at Berth.....

Declaration:

I declare that there **are** **are not*** dangerous spaces as defined under The Merchant Shipping (Entry into Dangerous Spaces) Regulations 1988, aboard the MV Into which persons are liable to enter during the vessels stay in Port. (***Delete as applicable**)
